Official Statement: Acquisition of RedKey IT Limited by EAC Network Solutions Limited

We are pleased to announce that **EAC Network Solutions Limited** has officially acquired **RedKey IT Limited**, marking an exciting new chapter for both organisations.

As part of this acquisition, the **RedKey IT brand will be retired**, with all employees, customer services, and supplier contracts being fully integrated into EAC Network Solutions Limited. This strategic move not only strengthens our operational capabilities but also enhances the range of services available to the existing RedKey IT customer base.

The acquisition increases the size of EAC Network Solutions to an estimated **£4 million in annual turnover**, reinforcing our position as a leading provider of IT solutions and support services.

We are all **delighted with this acquisition** and look forward to the opportunities it brings. By combining our teams, expertise, and resources, we are confident in our ability to deliver even greater value to our clients and partners. This is a significant step forward, and we are **excited for the future** as we continue to grow together as a larger, stronger organisation.

We would like to thank all our customers, employees, and partners for their continued support during this transition. We are committed to ensuring a smooth and seamless integration, and we look forward to building on our shared success.
